

ZenQuest website scope of work

Website: www.thezenquestbypooja.com | Client: Pooja Khera | 8 October 2026

Refresh the existing WordPress site to establish credibility, clarify consultations and simplify booking enquiries. Reuse the theme and sections where practical. No consultation prices may appear publicly.

1 Navigation and outdated sections

- Menu: Home, Consultations, About Pooja, Relationship Blueprint and Book a Reading. On desktop and mobile, Consultations must directly expose Tarot & Astro-Tarot Readings and Astrology Consultations.
- Replace Crystal Edit with astrology content linked to the main Astrology page. Remove crystal offerings, Book a Reading with Our Advisors and all Free Tarotscopes sections and subpages from public access, menus, footer and internal links.
- Retain Media links, Relationship Blueprint and its navigation link. Leave Relationship Blueprint content and design unchanged except for price removal. Preserve relevant URLs and handle retired URLs appropriately.

2 Homepage and credibility

- Make the opening screen show Pooja's photograph, clear astrology and tarot positioning, experience and a visible Book a Reading button.
- Arrange existing sections into a clear journey: introduction, consultation choices, credibility and anonymous testimonials, booking steps and short FAQs, final booking button.
- Replace approved text and images across the homepage, consultation pages and About page. Include 18+ years' experience and 1,000+ readings, subject to Pooja's final confirmation.
- Add three to five approved anonymous testimonials in readable text. Remove identifying details; use only permission-cleared feedback supplied by Pooja. Include selected genuine media features if supplied.

3 Consultation information and booking

- Present the offerings on page 2 with a brief purpose, format or duration, key inclusions and Book this reading button. Retain important conditions. Place each continuation below its main services, labelled For returning clients. Add a Not sure which reading to book? WhatsApp link.
- Main booking route: WhatsApp +91 96500 93836. Secondary route: Instagram DM @zenquestbypooja. Add service-specific prefilled WhatsApp messages, a header booking button and one discreet floating WhatsApp button that does not obscure content.
- Explain booking: enquire, receive fees and availability privately, then confirm with payment and required details. Include five short FAQs on choosing a reading, birth details, delivery formats, overseas bookings and follow-up.

4 Cleanup and completion

- Remove all public fees, including old pages, products and downloadable menus. Do not publish the supplied PDFs. Replace outdated shopping or shipping policy text with approved consultation policies.
- Back up the site and provide a preview for approval. Test readability, navigation and booking links on desktop, mobile and Instagram's in-app browser. Confirm Instagram links open messaging, not just a profile. Publish after approval and recheck.

Quote a fixed fee against a confirmed page list, including one revision round, testing, handover and seven days of implementation-error correction after launch. State timeline and extras. Pooja supplies final copy, images, testimonials and policies. Rebuilds, payments, booking software, analytics setup and maintenance require separate agreement.

Consultation reference for the freelancer

Reference only; do not publish this page verbatim. Follow both supplied menus and their conditions, without prices. Indian/international name variants below are alternatives for Pooja's approval, not separate services or slash-separated public titles.
